In this framework –

“core competencies” are competencies that cut across all levels of work in a municipality and enhance contextualised leadership that guarantees service delivery impact; and

“leading competencies” means competencies that are required to develop clear institutional strategy, initiate, drive and implement programs to achieve long-term sustainable and measurable service delivery performance results.

- 2.4 The competency framework further involves six (6) core competencies that act as drivers to ensure that the leading competencies are executed at an optimal level.
- 2.5 There is no hierarchical connotation to the structure and all competencies are essential to the role of a senior manager to influence high performance. All competencies must therefore be considered as measurable and critical in assessing the level of a senior manager's performance.
